ROMA CAPVT MUNDI

CAROTID AORTIC PERIPHERAL VASCULAR TREATMENT

MAY, 22ND - 23RD 2018
Dear Friends and Colleagues,

Welcome to the fourth edition of the Carotid Aorta Peripheral Vascular Treatment – Roma CAPVT Mundi.

It is a great honour and privilege to welcome you in this meeting organized by the School of Vascular and Endovascular Surgery of “Sapienza” University of Rome.

As Program Chairman, I wish CAPVT could enhance your skills and expand knowledge of vascular and endovascular treatment in all fields of vascular diseases.

The CAPVT program, in this fourth edition, would offer a comprehensive update on the state of the art in the field of the vascular pathology. This year, following last edition experience, debates will have a predominant space during the meeting, allowing a comprehensive discussion between worldwide recognized experts. Indeed, faculty of the CAPVT has established international reputation as both clinicians and leaders in their fields.

I’m honoured to welcome a such extraordinary faculty of experts and an audience of clinicians from all specialties involved in vascular care, including vascular surgeons, cardiologists, radiologists, neuroradiologists, and neurologists.

Faculty and attendees will interact on about the standard of care and alternative options in vascular pathology with special emphasis on how to manage complex diseases.

I hope, once again, that the quality of the venue and the beautiful and charming city of Rome will add special memories to the scientific program.

Sincerely,

Francesco Speziale
TUESDAY
MAY 2018
HOTEL NH COLLECTION
01 PM - 08 PM

ABSTRACT SESSION I

SESSIONS I
ACUTE STROKE TREATMENT AND INDICATION FOR ASYMPTOMATIC DISEASE

SESSIONS II
NEW SOLUTIONS AND DEVELOPMENTS IN CAROTID ARTERY TREATMENT:
HOW TECHNOLOGIES ALLOW TO MAXIMIZE RESULTS

SESSIONS III
STRATEGIES AND INTERVENTIONS FOR EFFECTIVE TREATMENT OF AORTIC
AND ILIAC STENOSIS AND OCCLUSIONS: OLD CERTAINTIES AND NEW POSSIBILITIES

SESSIONS IV
WHERE ALL THE CERTAINTIES FALL, WHAT WE KNOW (AND WHAT WE DO NOT)
ABOUT TREATMENT OF FEMORAL AND POPLITEAL ARTERIES

SESSIONS V
WHERE ALL THE CERTAINTIES FALL, WHAT WE KNOW (AND WHAT WE DO NOT)
ABOUT TREATMENT OF BELOW THE KNEE VESSELS
- The benefit of deferred carotid revascularization in patients with moderately impairing cerebral ischemic stroke.

- Somato-sensory evoked potentials reduce shunt incidence during carotid endarterectomy.
M. Leopardi, A. Musilli, M. Ventura - L’Aquila

- Carotid Angioplasty and Stenting during Transcatheter Aortic Valve Implantation.
D. Foresti, T. Porretta, G. Gelpi, F. Ariano, C. Romagnoni, R. Codemo, C. Antona - Milano

- Aorto-iliac endovascular recanalization with inferior mesenteric artery preservation in patients with Leriche syndrome.

- Eversion endarterectomy of the femoral bifurcation: technique, results and potential advantages.
A. Esposito, A. Baiano, F. Di Leo, P. Benedetto, A. Trani, P. Cappiello - Potenza

- Endovascular repair of visceral artery aneurysms using covered stent-grafts.
S. Pelliccia, G. Simonte, E. Paciaroni, E. Centonza, G. Pupo, F. Verzini - Perugia

- Endovascular vs surgical option for isolated iliac aneurysm treatment. A monocentric experience.
F. Valentino, M. Riggi, D. Petruccelli, R. Lipari, G. Ferro, G. La Barbera, F. Talarico - Palermo

- Initial approach of treatment of toracoabdominal e pararenal with customized Jotec device in a single center.
E. Gatta, G. Pagliariccio, G. Gironi, E. Paci, L. Carbonari - Ancona

- Contrast free approach of patients with abdominal aortic disease and renal insufficiency.
E. De Marco, A. Giaquinta, P. Veroux – Catania

- Surgical management of inferior vena cava thrombosis secondary to renal cell carcinoma.
F. Calemma, G. Aprea, S. Perdonà, B. Amato – Napoli
SESSION I
ACUTE STROKE TREATMENT AND INDICATION FOR ASYMPTOMATIC DISEASE

02.00-03.00PM

CHAIREDN: O. GOEAU-BRISONNIERE, G. LANZA, E. SBARIGIA
DISCUSSANT: A. ASCOLI MARCHETTI, R.N. BERCHIOLLI, M. DANese, M.F. GIANNONI, G. ILLUMINATI, F. NESI, A. VONA

• Decisional Algorithm in a modern Stroke Team
  -D. Toni

• When and how perform intracerebral vessel revascularization
  -G. Guidetti

• Endovascular Stroke Treatment of Acute Tandem Occlusion: A Single-Center Experience
  -R. Gandini

• Role of Vascular Surgeon in Acute Stroke Treatment
  -L. Capoccia

• Debate on treatment of asymptomatic carotid artery stenosis with carotid endarterectomy
  - For the motion
    -G. LaMuraglia
  - Against the motion
    -J. Fernandes e Fernandes

• Focus-on ACST-2 Trial: an international multicenter study from an Italian prospective
  -R. Bulbulia
SESSION II

NEW SOLUTIONS AND DEVELOPMENTS IN CAROTID ARTERY TREATMENT: HOW TECHNOLOGIES IMPROVE RESULTS

03.00-04.00PM

CHAIRMAN: G.C. BRACALE, M. CARIATI, F. VEITH
DISCUSSANT: D. ALBERTI, P. CAPPIELLO, P. DENARO, P. GRILLO, A. SCHIOPPA, Y. TSHOMBA, P. VOLPE

- How a dedicated (and skilled) team of anesthesiologists could improve outcomes after carotid endarterectomy and stenting
  - F. Pugliese

- How to minimize CAS-related adverse events:
  - best access choice
    - T. Tesorio
  - embolic protection devices role
    - E. Stabile
  - new generation multilayers stents
    - M.A. Ruffino

- Despite all CAS procedure technical evolutions, CEA is still the gold standard. Let me explain why
  - C. Pratesi

- A snapshot of today carotid stenosis treatment: variation in international practice patterns
  - C. Setacci
SESSION III

STRATEGIES AND INTERVENTIONS FOR EFFECTIVE TREATMENT OF AORTIC-ILIAC STENOSIS AND OCCLUSIONS: OLD CERTAINTIES AND NEW POSSIBILITIES

04.00-05.00PM

CHAIRMAN: J. BUSQUET, M. MALINA, C. SPARTERA
DISCUSSANT: G. ACCARINO, S. BARTOLI, C. CAVAZZINI, A. ESPOSITO, B. PRAQUIN, I.P. RENZI, R. STUMPO

- Isolated atherosclerotic aortic stenosis and occlusion:
  - endarterectomy is not a forgotten legend but a still valid intervention
    - C. Novali
  - bypass is the procedure of choice: simple, safe and effective
    - A. Ippoliti
  - endovascular solutions represent a capital option
    - A. Freyrie

- A comparison between aorto-bifemoral bypass and aorto-iliac kissing stenting in patients with complex aorto-iliac obstructive disease
  - F. Grego

- Carbon-coated self-expandable stents in patients with atherosclerotic iliac artery disease
  - S. Michelagnoli

- Covered stents and peripheral endografts provide better outcome than bare stents in complex aorto-iliac revascularization
  - R. Pulli

- Covered Endovascular Reconstruction of Aortic Bifurcation (CERAB) for extensive aortoiliac occlusive disease
  - R. Giudice

- AFX unibody stent-graft implantation in patients with TASC D aorto-iliac lesions and coexistent abdominal aortic aneurysms: indications and results
  - P. Sirignano
SESSION IV
WHERE ALL THE CERTAINTIES FALL, WHAT WE DO KNOW (AND WHAT WE DON’T)
ABOUT TREATMENT OF INFRAINGUINAL VESSELS
05.00-06.00PM

CHAIRMEN: G. BAJARDI, A.M. JANNELLO, G. LAMURAGLIA
DISCUSSANT: V. ALBERTI, D. BENEVENTO, F. CODISPUTI, G. GALZERANO, N. MONTELIONE, F. PECORARO, N. STELLA

- The role of the Profundoplasty in the modern management of patient with peripheral vascular disease
  - M. Taurino

- Results of a new angioplasty concept: routine use of a nitinol-constrained balloon catheter followed by drug-coated balloon
  - W. Mansour

- Available technologies for SFA stenting: DES, biomimetic, peripheral endografts … is there a recognizable “best solution”?
  - G. Piffaretti

- Interwoven nitinol Supera stent clinical update: Italian consensus document and latest evidences
  - R. Silingardi

- Evaluation of the endovascular treatment of critical limb ischemia in the drug-eluting era.
  - V. Brizzi

- A new fluoroscopically guided technique for restoring patency to occluded PTFE bypass grafts
  - F. Veith

- The Indigo system in acute lower limb malperfusion: preliminary results of an Italian Registry
  - G. de Donato
SESSION V
WHERE ALL THE CERTAINTIES FALL, WHAT WE DO KNOW (AND WHAT WE DON’T) ABOUT TREATMENT OF INFRAPOPLITEAL VESSELS
06.00-07.00PM

CHAIRMAN: L. GABRIELLI, A. SCHMIDT, C. SETACCI
DISCUSSANT: S. CAMILLI, F. DE SANTIS, S. FURGIUELE, G. PALASCiano, A.R. RIZZO, G. SPINELLA, F. STILO

- Management of acutely thrombosed popliteal artery aneurysms: is endovascular treatment with primary stenting the “first-line” strategy?
  - G. Pratesi

- Everolimus-eluting stent for patients with critical limb ischemia and infrapopliteal arterial occlusive disease
  - P. Veroux

- Midterm outcomes from a pilot study of percutaneous deep vein arterialization for the treatment of no-option critical limb ischemia
  - R. Ferraresi

- How to manage outflow vessels: tips and tricks to achieve good results in distal bypass in critical limb ischemia patients
  - F. Spinelli

- How a real world Vascular Clinic should manage critical limb ischemia patients: from admission to discharge
  - M. Lenti

- Guidelines for treatment of diabetic foot ulcers
  - G. LaMuraglia

- A new non-surgical strategy to Save More Limbs: the SMOL Registry
  - F. Peinetti
OPENING CEREMONY

07.00-08.00PM

- Opening Remarks
  - F. Speziale (Symposium Chairmen),
  - F. Nessi (President of Italian Society of Vascular and Endovascular Surgery),
  - P. Berloco (Head of Cardiac, Thoracic and Vascular Surgery, General Surgery, and Organ Transplantation Department - Policlinico Umberto I of Rome),
  - E. Gaudio (Dean of University Sapienza of Rome).

- De motu cordis et aneurismatibus of J.M. Lancisi, full professor in ancient “Sapientia University” of Rome
  - A. Argenteri

- Honorary Lecture: Dealing with adversity: a requirement for vascular specialists
  - F. Veith
RAPID PAPER PRESENTATIONS

SALA MASCAGNI

05.00-06.00PM

CHAIRMEN: L. CAPOCCIA, Y. TSHOMBA

- Endovascular exclusion with coils of splenic aneurysms. Monocentric experience.  
  E. Dinoto, F. Pecoraro, D. Mirabella, P.O. Conti, N. Lo Biundo, A. Farina, F. Ferlito, G. Bajardi  
  - Palermo

- Endovascular treatment of a spontaneous contained rupture of a non-aneurysmal infrarenal aorta in an AL-Amyloidosis patient: a case report.  
  C. Fenelli, G. Faggioli, G. Indelicato, R. Pini, E. Gallitto, C. Mascoli, M. Gargiulo, A. Stella  
  - Bologna

- Surgical management of extracranial internal carotid artery aneurysm with high reconstruction.  
  R.C. Vigliotti, F. Stilo, N. Montelione, S. Bernardini, F. Spinelli - Roma

- Re-do carotid stenting in carotid restenosis.  
  G. Vigliotti, G. Santini, L. Rinaldi, R.C. Vigliotti - Nocera Inferiore

- Proximal Scallop in Thoracic Endovascular Aortic Aneurysm Repair: our preliminar experience.  

- Late open surgical conversion after EVAR.  
  I. Ficarelli, C. Ruotolo - Napoli

- Endovascular treatment of firearm injury of popliteal artery in a young patient.  

- Acute aortic thrombosis in patient with aortic inflammatory aneurysm.  
  M. Leopardi, A. Salerno, P. Scarpelli, L. Perilli, M. Ventura - L’Aquila

- Mycotic pseudoaneurysm of internal carotid artery secondary to Lemierre's syndrome, how to treat it.  
  D. Barillà, D. Spinelli, N. Pipitò, G. Derone, F. Benedetto - Messina
- Custom-seal ultra-low-profile Ovation stent-graft.
  D. Petruccelli, F. Valentino, M. Riggi, R. Lipari, G. Ferro, S. Tinaglia, G. La Barbera, F. Talarico
  - Palermo

- A singular case of unexpected early post-EVAR aneurysm rupture.
  F. De Santis, R. Chiappa, G. Morettini, C.M. Chaves, M. Napoleone, P. Notari, R. Stumpo
  - Roma

- Double layer stent for endovascular treatment of a carotid artery pseudoaneurysm as a complication of CAS.

- Endovascular treatment of carotid pseudoaneurysm after eversion endarterectomy.
  F. Accrocca, A. Siani, T. Castrucci, G. De Vivo, G. Ianni, G. Smedile, S. Corona, S. Bartoli
  - Roma

- Carotid stenting without cerebral protection. A personal experience and literature review.
  A. Alberti, A. Volpe, F. Cutrupi, G. Stilo, P. Volpe - Reggio Calabria

- Correction by hybrid approach of thoraco-abdominal aortic aneurysm (TAAA) with severe aortic valve stenosis.
  T. Porretta, G. Gelpi, F. Ariano, D. Foresti, C. Romagnoni, C. Antona - Milano

- Nellix endoprosthesis: single-center experience.
  U. Ruzzi, A. Cappelli, G. de Donato, G. Giannace, C. Baldi, W. Guerrieri, G. Mazzitelli,
  G. Palasciano - Siena

- Chronic type B “residual” after type A: “kick-off” registry.
  P. Ottavi, R. Micheli, J. Delis, F. Grasselli, P. Bonanno, L. Farchioni, F. Ferilli - Terni

- Primary aorto-enteric fistula: a case series from a single centre.
  A. Trevisan, G. Varetto, L. Gibello, P. Peretti, P. Garneri, P. Rispoli - Torino

- Hybrid total arch replacement for an isthmic aortic false aneurysm post-patch coarctation aortoplasty.
  A. Cotroneo, G.L. Martinelli, D. Barillà, M. Diena - Monza

- Renal Snorkel Technique as a bailout during FEVAR
  Boschetti G.A., Spinella G., Pane B., Mambrini S., Ferrero C., Gazzola V., Palombo D. - Genova
**WEDNESDAY**

**MAY 2018**

**HOTEL NH COLLECTION**

**08 AM - 04 PM**

**ABSTRACT SESSION II**

**SESSIONS VI**

**DISCOVERING THE UNKOWN: NEW RESEARCH, PROMISING TECHNOLOGIES, AND EMERGING PROBLEMS IN VASCULAR SURGERY, THE FUTURE STARTS TODAY**

**SESSIONS VII**

**THE GREAT DEBATE, OPEN AND ENDOVASCULAR PROCEDURES: WHICH IS THE BEST FOR REPAIRING THE AORTA LESIONS FROM THE VALVE TO THE ARC?**

**SESSIONS VIII**

**NEW POSSIBILITIES IN TREATING THORACIC AORTA ANEURYSMS, AND AORTIC DISSECTION AND IN PREVENTING SPINAL CORD ISCHEMIA**

**SESSIONS IX**

**OFF-THE-SHELF ENDOGRAFTS, CUSTOM MADE POSSIBILITIES AND HAND MADE SOLUTIONS FOR THORACO-ABDOMINAL AND PARARENAL AORTIC ANEURYSM DISEASE**

**SESSIONS X**

**A NEVERENDING STORY: DECISION MAKING FOR INFRAARENAL ABDOMINAL AORTIC ANEURYSM, ISOLATED IliAC ANEURYSMS, AND RUPTURED ANEURYSMS**

**SESSIONS XI**

**EVAR PROCEDURES ARE EFFECTIVE AND STANDARDIZED BUT WHAT HAPPENS AFTER DISCHARGE? ENDOLEAKS ARE COMMON AND POTENTIALLY DANGEROUS**
- The role of endostapling in expanding EVAR feasibility.  

- Abdominal aortic and left renal artery aneurysms: which way if embolization is not enough?  
  **A. Settembrini**, L. Gabrielli - Milano

- Transgluteal embolization of hypogastric aneurysm: report of two cases.  
  **Gibello L**, Varetto V, Spalla F, Ripepi M, Rispoli P - Torino

  **G. Coppi**, C. Stringari, L. Arcuri, F. Zaraca, R. Perkmann - Bolzano

- Gore TAG conformable active control® in hostile aortic arch.  

- The “Bare Branch” as an Adjunct to Prevent Paraplegia After Total Endovascular Repair of Thoracoabdominal Aneurysms.  
  **M. Orrico**, S. Ronchey, C. Setacci, A. Vona, F. Nesi, M. Marino, N. Mangialardi - Roma, Siena

- Preliminary experience with the Bolton TReo Custom made for pararenal/juxtarenal aneurysms.  
  **M. Moro**, R. Arzedi, L. Mortola, C. Ganau, S. Camparini - Cagliari

- EVAS is a new technique in the endovascular armamentarium to correct endoleak: our experience in 10 cases.  
  **E. Munari**, G. Saitta, R. Silingardi, S. Gennai - Modena

- Nellix explantation for Type Ia endoleak three-year after EVAS.  

- Endovascular exclusion of hypogastric aneurysm with gluteal revascularization after aortoiliac surgical reconstruction.  
  **C. Bianchini Massoni**, T. Tecchio, M. Fanelli, G. Rossi, A. Freyrie - Parma
SESSION VI

DISCOVERING THE UNKNOWN: NEW RESEARCH, PROMISING TECHNOLOGIES, AND EMERGING PROBLEMS IN VASCULAR SURGERY. THE FUTURE STARTS TODAY

09.00-10.00AM

CHAIRMEN: P. CASTELLI, P. RISPOLI, A. STELLA
DISCUSSANT: B. AMATO, F. DRUDI, A. FERRANTE, R. GIUDICE, O. MARTINELLI, C. PRANTEDA, F. SETACCI

- The value of research in vascular surgery: from the Vascular Surgeon to the Vascular Specialist
  - D. Palombo

- Proficiency in open and endovascular procedures: simulators are useful but they do not replace experience
  - J. Fernandes e Fernandes

- Routine use of a dedicated hybrid room for Vascular Surgery: current advantages and future perspectives
  - G. Faggioli

- Sensorized guiding catheter for in situ laser fenestration of endovascular stents
  - M. Ferrari

- A 3D printed patient-specific model to assist decision making in endovascular treatment of complex aortic diseases
  - E.M. Marone

- It’s time to change our standard approach to CAS: midterm results of the ROADSTER 1 pivotal trial of the silk road system for transcarotid artery stent revascularization (TCAR)
  - M. Malas

- Management of unusual and non-atherosclerotic vascular emergencies:
  - Experience of a high-volume Italian trauma center
    - F. Talarico
  - Lesson learned from terrorist attacks
    - O. Goeau-Brissonniere
SESSION VII

THE GREAT DEBATE, OPEN AND ENDOVASCULAR PROCEDURES: WHICH IS BEST FOR REPAIRING AORTA LESIONS FROM THE VALVE TO THE ARC?

10.00-11.00AM

CHAIRMEN: P. CAO, F. FEDELE, P. KASPRZAK
DISCUSSANT: R. BORIONI, F. FERILLI, A. GAGGIANO, R. PERKMANN, M. PIAZZA, L. RIZZO, F. RUBERTO

• How to stratify patients' risk for major cardiac and vascular surgery
  -L. Tritapepe

• Tips and tricks to prevent cerebral embolization and related complications prior, during, and after aortic valve repair:
  -Endovascular
    -M. Mancone
  -Open repair
    -G. Mazzesi

• Treating ascending aortic disease:
  -OR is the best and the only possible strategy
    -R De Paulis
  -Welcome in 2018, the endovascular era is here
    -N. Tsilimparis

• Aortic Arch Aneurysm a modern and comprehensive approach:
  -Why open repair is the best approach and how to perform it
    -F. Musumeci
  -Why endovascular repair is the best approach and how to perform it
    -Z. Rancic
SESSION VIII

NEW POSSIBILITIES IN TREATING THORACIC AORTA ANEURYSMS, AORTIC DISSECTION AND IN PREVENTING SPINAL CORD ISCHEMIA

11.00-12.00AM

CHAIRMEN: R. CHIESA, E. DUCASSE, N. TSILIMPARIS

- Aortic arch and thoracic aorta curvature remodeling after thoracic endovascular aortic repair
  - V. Riambau

- Possibilities and limits of endovascular treatment for aberrant right subclavian artery aneurysms
  - P. Cao

- Late Complications after Thoracic Endovascular Aortic Repair: What Is the Role of an Open Surgical Conversion?
  - L. Davidovic

- A feasibility study of Off-the-Shelf scalloped stent-grafts in Acute Type B Aortic Dissection
  - S. Trimarchi

- New insight in acute type B aortic dissection: from PETTICOAT to STABILIZE
  - G. Melissano

- The Candy-Plug Technique: technical aspects and early results of a new endovascular method for false lumen occlusion in Chronic Aortic Dissection
  - N. Tsilimparis

- Preconditioning by segmental intercostal artery embolization to prevent SCI in aortic repairs: a clinical experience
  - A. Schmidt
SESSION IX

OFF-THE-SHELF ENDOGRAFTS, CUSTOM MADE POSSIBILITIES AND HAND MADE OPTIONS FOR
THORACO-ABDOMINAL AND PARARENAL AORTIC ANEURYSM DISEASE. ARE THEY THE DEFINITIVE SOLUTIONS?

12.00-01.00pm

CHAIRMEN: L. DAVIDOVIC, V. RIAMBAU, P.G. SETTEMBRINI
DISCUSSANT: F. ACCROCCA, C. COSCARELLA, C. FERRER, A. GAGGIANO, R. GATTUSO, M. RUGGERI, G. TINELLI

- BEVAR has become the standard of care for most of patients with thoraco-abdominal aortic aneurysms
  - M. Gargiulo

- Indication and technical aspects of FEVAR for Juxta- and Supra-Renal Aortic Aneurysms
  - A. Schmidt

- Contraindications for regular FEVAR and suggestions for home-made fenestration preparation and use in Juxta- and Supra-Renal Aortic Aneurysms
  - E. Ducasse

- Graft Complexity-Related Outcomes of FEVAR for Pararenal Aortic Aneurysms
  - P. Kasprzak

- Chimney Grafts in Aortic Aneurysms repair: Hazardous or Useful Technique?
  - M. Malina

- How to combine chimney graft materials to improve durability and reduce complications
  - P. Frigatti

- Beware, open surgical conversion is still the final solution for failure of complex endovascular aortic repairs
  - R. Chiesa
SESSION X
A NEVERENDING STORY: DECISION MAKING FOR INFRARENAL ABDOMINAL AORTIC ANEURYSMS, ISOLATED ILIAC ANEURYSMS, AND RUPTURED ANEURYSMS
02.00-03.00PM

CHAIRMEN: S. BONARDELLI, J. BUSQUET, L. DI MARZO

• How to reduce the invasiveness of procedures for intact AAA repair a fast-track oriented OR protocol
  - E. Civilini

• Using available techniques standard EVAR is a safe and effective procedure even in:
  - extremely short (<7mm) proximal aortic neck
    - S. Ronchey
  - extremely angulated (90°) proximal aortic neck
    - M. Malas

• How to preserve hypogastric artery patency in aorto-iliac interventions
  - C. Ruotolo

• Current endovascular management of isolated iliac aneurysms
  - F. Verzini

• EVAR for ruptured AAAs: Results from RCT and their correlation with daily clinical practice
  - Z. Rancic

• The real extreme patient is the hemodynamically unstable one: tips and tricks for obtaining supraceliac aortic control with EVAR for ruptured AAAs
  - F. Veith

• Aneurysm shrinkage is compatible with massive endoleak in the presence of an aorto-caval fistula: potential therapeutic implications for endoleaks
  - M. Malina
SESSION XI

EVAR PROCEDURES ARE EFFECTIVE AND STANDARDIZED BUT WHAT HAPPENS AFTER DISCHARGE? ENDOLEAKS ARE COMMON AND POTENTIALLY DANGEROUS: CURRENT DIAGNOSIS AND TREATMENT STRATEGIES

03.00-04.00PM

CHAIRMAN: Y. BAUSBACK, O. GOEAU-BRISONIERE, L. IRACE
DISCUSSANT: G. BERTOLETTI, F. FACCENNA, S. FAZZINI, B. PANE, N. MONTELIONE, A. PANNONE, S. VENOSI

- An old inclusion criterion to EVAR was mandatory follow-up, but how many patients are followed in common practice today?
  -M. Antonello

- A modern and comprehensive approach to EVAR follow-up, endoleak diagnosis and interpretation
  -M. Salcuni

- How to manage Type Ia endoleak after standard EVAR: cuff, chimney, and much more...
  -N. Mangialardi

- Endoanchors in preventing and treating Type Ia endoleak after standard EVAR in hostile neck patients
  -P. Kasprzak

- Type Ia endoleak after Nellix endovascular aneurysm sac sealing: clinical presentation and management
  -B. Gossetti

- Laparoscopic Transarterial Embolization of Type II Endoleak: an effective technique
  -G. Fadda

- Endotension: a real disease or the CTA appearance of an undiagnosed endoleak?
  -A. Ruffino
RAPID PAPER PRESENTATIONS

SALA MASCAGNI

01.00-02.00PM

CHAIRMEN: D. PERTILE, P. SIRIGNANO

- Ruptured aortic aneurysm caused by type 2 endoleak: treatment with partial conversion. 
  G. Pagliariccio, C. Grilli Cicilioni, E. Gatta, G. Gironi, A. Angelini, L. Carbonari - Ancona

- The efficacy of a protocol of iliac artery and limb treatment during EVAR in minimizing late iliac occlusion. 
  R. Pini, P. Spath, A. Vacirca, G.L. Faggioli, M. Gargiulo, A. Stella - Bologna

- Hypogastric sauve in endovascular repair of aorto-iliac aneurysms. 
  R. Arzedi, P. Dalla Caneva, M. Moro, G.G. Genadiev, S. Camparini - Cagliari

- Active fixation with Aptus Heli-FX Endoanchors in EVAR with type IA endoleak: our experience. 
  F. Giacchi, G. Iacono, F. Marchetti, S. Turci, L. Braccini, G.U. Turicchia - Cesena

- Late open conversion of EVAR: our experience and suggestions. 

- A peculiar case of Abdominal Aortic Aneurysm (AAA) treated by AFX Endologix graft. 
  V. Picone, D. Maruca, A. Di Girolamo, M. Fresilli, C. Belli, J. Ben Hamida - Roma

- Peroneal artery bypass in octo-nonagenarian with critical limb ischemia in the endovascular era. 
  R. Gabrielli, A. Dante, M. Maiorano, F. Ciocca, M. Ventura - L'Aquila

  G. Roscitano, G. Passari - Patti

- Zone zero endovascular debranching for ruptured arch aneurysm after previous zone one repair. 
  D. Spinelli, D. Barillà, N. Pipitò, G. Derone, F. Benedetto - Messina

M. La Spada, S. Barbera, M. Macarone, E. Magazzù, G. Passari - Patti

- Emergent superior mesenteric artery Ch-EVAR for suprarenal septic aortic rupture 2 years after EVAR.

A. Ucci, B. Nabulsi, E. Mariani, M. Azzarone, A. Freyrie - Parma

- A complex case of the Hybrid treatment in a patients with contemporary dissection of the ascendent aorta, coronaropaty and Endoleak type I after TEVAR. Case Description and Timeline of the treatment.

P. Volpe, A. Alberti, P. Fratto, G. Stilo, A. Volpe - Reggio Calabria

- A complex case of endovascular recanalization for Leriche syndrome.

D. Foresti, T. Porretta, R. Codemo, C. Antonia - Milano

- Post-traumatic posterior tibial artery pseudoaneurysm.

A. Biello, G. Natalicchio, M.G. La Marca, G. Sorino, G. Castriotta, M. Salcuni - Bari

- An unexpected challenge in the endovascular repair of Posttraumatic Infrarenal Abdominal Aortic Pseudoaneurysm.

G. Ianni, F. Accrocca, A. Siani, T. Castrucci, G. De Vivo, G. Smedile, S. Corona, S. Bartoli - Roma

V. Catanese, P.A. Zedde, C. Donelli, A. Piseddda, A. Pinna, R.C. Vigliotti, A. Porcu, E. Martelli - Sassari

P. Bonanno, P. Ottavi, R. Micheli, I. Delis, F. Grasselli, L. Farchioni, F. Ferilli - Terni

- Ruptured thoraco-abdominal aneurysm: management in emergency.

P. Perri, P. Piro, E. Scarcello, M. Mazzei, A. Esposito, V. Molinari, F. Intrieri - Cosenza

- A two-stage procedure for a huge post type A dissection aortic arch aneurysm.

V. Tolva, G. Lanzillo, P. Greco, F. Scalise, P. Bianchi, L. Cireni - Monza

- Thoracic Aortic Aneurysm treated with Fenestrated-Thoracic Endovascular Aortic Repair (F-TEVAR): a three patients report

GENERAL AND SCIENTIFIC INFORMATION

COURSE DIRECTOR
Francesco Speziale

SCIENTIFIC SECRETARIAT
Laura Capoccia
Wassim Mansour
Pasqualino Sirignano
caput.meeting@gmail.com

ORGANIZING SECRETARIAT
G.C. srl
Viale Cortina d’Ampezzo 170
00135 Roma
Tel. 0685305059
e.mail: segreteria@gc-conor.it

CONGRESS LOCATION
NH Hotel Vittorio Veneto
Corso d’Italia, 1 – 00198 Roma

SECRETARIAT ON CONGRESS SITE
The Organizing secretariat will open half an hour before and close half an hour after the scheduled sessions.

TECHNICAL EXPOSITION
The technical Exposition will be held in parallel with the Congress.
REGISTRATION INFORMATION

The registration fee is complimentary. The registration must be sent to (segreteria@gc-conor.it) G.C. srl.

PARTICIPATION CERTIFICATE

Participation Certificates will be released on May 23rd to all the registered participants from the Secretariat when required.

OFFICIAL LANGUAGE

Slides must be prepared in English; presentation and discussion will be indifferently in Italian or English language.

SLIDE CENTER

Personal Computers cannot be connected directly to the projector. Faculty members are kindly required to deliver their presentations to the slide center at least 30 minutes before the beginning of their sessions.

Presentations will have to be prepared on Microsoft Power Point (.ppt) and in 16:9 format and will have to be saved on a USB pen drive.

SIMULTANEOUS TRANSLATION

During the congress simultaneous translation from Italian to English and from English to Italian is provided.
